

### Coordinate Plane Homework

- 1.) Draw an outline of an object of your choosing on the coordinate plane grid paper you were given.
- 2.) Use a minimum of 30 ordered pairs to delineate your object.
- 3.) Write the corresponding ordered pairs on the ordered pairs worksheet.
- 4.) Make sure that you have included all ordered pairs that will make the outline true when another student is asked to recreate it.
- 5.) Title your ordered pair worksheet with a name that will give the solver a clue.

Name \_\_\_\_\_ Period \_\_\_\_\_

Object Title \_\_\_\_\_

**Ordered pairs:**

- |           |           |           |
|-----------|-----------|-----------|
| 1) _____  | 11) _____ | 21) _____ |
| 2) _____  | 12) _____ | 22) _____ |
| 3) _____  | 13) _____ | 23) _____ |
| 4) _____  | 14) _____ | 24) _____ |
| 5) _____  | 15) _____ | 25) _____ |
| 6) _____  | 16) _____ | 26) _____ |
| 7) _____  | 17) _____ | 27) _____ |
| 8) _____  | 18) _____ | 28) _____ |
| 9) _____  | 19) _____ | 29) _____ |
| 10) _____ | 20) _____ | 30) _____ |
