

# Number Squared Tiles

$$\square^2 = \square^2 + 1^2$$

$$\square^2 = \square^2 + \square^2$$

$$\square^2 - 2 = \square^2$$

$$\square^2 = \square^2 + 5$$

Make up one of your own number squared tiles below!

## Exponent Tiles

$$\square^3 = \square 2 \square$$

$$\square^2 = \square \square 1$$

$$\square^2 - \square = \square \square 4$$

$$\square^2 - \square = \square 1 \square$$

Make up one of your own exponent tile equations below!
